SMART CHEMISTRY
WITH CHARACTER.

SILICONES

**NO. ■ STRUGGLING
ALONE.**

**YES. ■
SUCCESSFUL TOGETHER.**

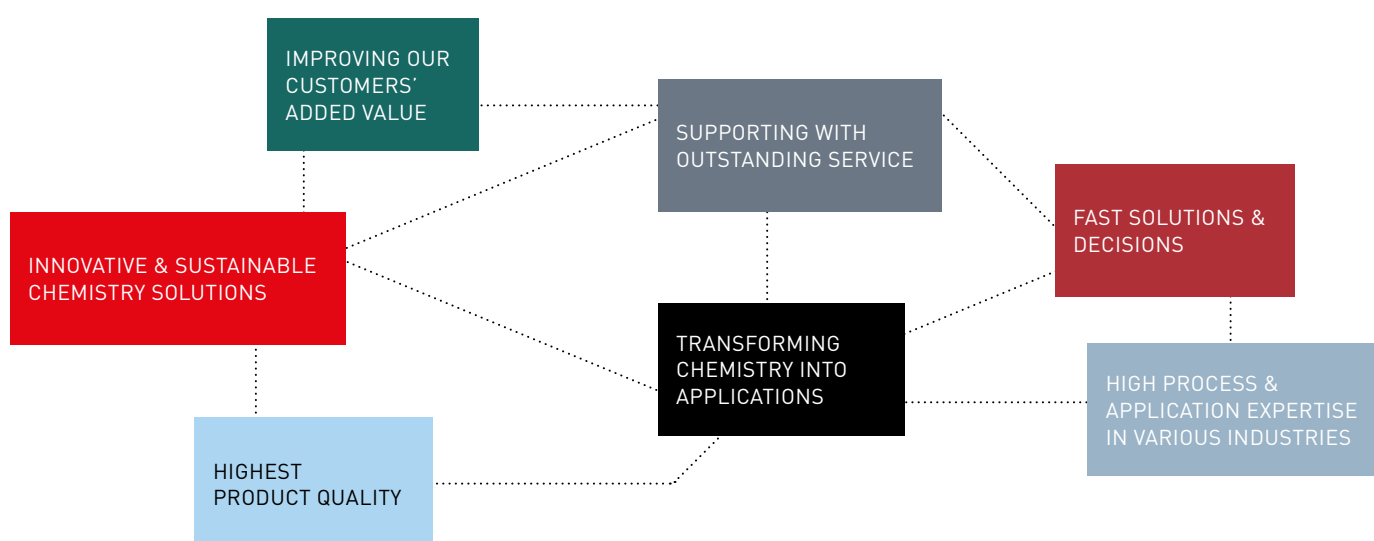

SilSo APPLICATIONS Silicone Solutions that make your life easier.

The CHT Group

The CHT Group is a medium-sized global player for chemical specialties. From the foundation of CHT Germany GmbH in Tübingen in 1953, it has grown into a worldwide operating group focussed on innovative chemicals as function generators, auxiliaries and additives for various industrial processes. The products optimise production processes and influence the functionality, optics and quality of the final material and goods.

Smart Chemistry with Character means your success is part of our responsibility. We will formulate the solution that meets your individual requirements. It also means that you can count on our technical and personal support even beyond the individual project.

WHAT OUR CUSTOMERS CAN EXPECT FROM US

OUR VISION

«The goal of the CHT Group is to be the preferred partner and leading reference for sustainable chemistry solutions, supporting its customers in our worldwide markets.»

Dr. Frank Naumann, CEO CHT Group
