

HANSA CARE 9070

Modified siloxane as an ingredient for Home and Car Care.

Description

The silicone hybrids are special silicone polymers combined with the organic polymer chemistry. Therefore it is possible to create with these polymers unique and outstanding effects in home-, fabric- and car care products.

Key Features

- Hydrophilicity
- Softness
- Easy ironing
- Anti-static effect

Key Applications

- Fabric Care

Application

HANSA CARE 9070 is suited as raw material for formulating care products for textiles, e.g. softeners.

Use and Cure Information

Stir before use.

Health & Safety

Safety Data Sheets available on request.

Packaging

Drums and bulk containers. Please contact our sales department for more information.
