TECHNICAL DATA SHEET

ICM 1076 (60) Food grade silicone emulsion

Description	Property	Test	Value
This product is a food grade emulsion of a polydimethylsiloxane fluid.	Product	Method	
Key FeaturesFood grade ingredients	Appearance Ionicity		White Emulsion Non-ionic
 Effective in low concentrations Easy to handle and easily formulated Effective in hot and cold systems 	Solids Content (%) Viscosity (cst)		60 % 6000
 Key Applications Mold release aid Food processing systems 	pH Addition Rates		6
Chain greaseLubrication agent	Dosage - 1		1-5% for mold release applications
Application ICM 1076(60) is a water dispersible 60% nonionic emulsion, formulated for food grade release and greasing applications. ICM 1076(60) is used in many release and greasing applications which require food grade ingredients. Use and Cure Information	Storage Max Storage Temperature Min Storage Temperature Packaging Shelf Life		40 °C / 104 °F 4 °C / 39 °F 40 lb. pails or 441 lb. drums 12 mths
This product can be diluted in water or an aqueous media before			

This product can be diluted in water or an aqueous media before

use. If unsure where to start the dilution, it is recommended to dilute one-part product to 30 parts water/aqueous media. This dilution is then applied to the food contact surface by spraying, wiping, brushing, or dipping.

Health & Safety

This product is not intended for pharmaceutical use. It is the responsibility of the user to ensure acceptable compatibility with intended food contact surfaces.
