

TECHNICAL DATA SHEET

QM Pt Accelerator Addition cure curing accelerator

Description	Property	Test Method	Value
This can be used with two-component, room temperature, addition cure, silicone materials to reduce the de-mold time. When added at 1% to the silicone base, it will reduce the de-mold time by roughly one half. The work time will also be significantly reduced. This product can also be used as a surface treatment to prevent inhibition.	Uncured Product		
	Color		Clear
Key Features <ul style="list-style-type: none">• Reduces de-mold time• Low Viscosity• Casting resin resistance• Inhibition resistance	Cure Type		Addition
	Rheology		Liquid
Use and Cure Information The applications for this are numerous and varied. All application methods and recommended levels must be considered on an individual basis. Contact the CHT USA customer service team or your sales representative for details.	Specific Gravity		0.97
	Viscosity	Brookfield	2,200 cP
Health & Safety Safety Data Sheets available on request.	Storage		
	Max Storage Temperature		38 °C / 100 °F
	Shelf Life		24 mths
