

AF 100 100% active silicone defoamer

Description

CHT USA's 100% active defoamers are formulated to control foam in a wide variety of industrial processes.

Key Features

- Excellent foam knockdown and persistence
- Effective in low concentrations
- Effective in hot and cold systems
- Easy to handle

Key Applications

- Coatings
- Food starch and protein washes
- Pulp and paper
- Waste water treatment

Application

AF 100 is used in to control foam in industrial applications including coatings, oil and gas, food starch and protien washes, beverages, pulp and paper and waste water treatment.

Use and Cure Information

100% active silicone defoamers can be dispersed with minimal agitation in most nonaqueous processing applications, however it is advisable to screen each application before use. Use product as is by adding directly into foaming system, or dilute with process liquid prior to use. Effective when added prior to foam generation or when added to control existing foam.
