

## CHT-BeauSil RE-AMO 919 EM

### Microemulsion of a sugar modified siloxane as an ingredient for Personal Care.

#### Description

Sugar modified silicones are the “sweet” silicone solution for hair. This unique chemistry of sugar modified Amodimethicone that has all the benefits of typical Amodimethicones without weighting the hair down. Using such sugar modified silicone creates natural softness, best dry and wet combing and improving of shine.

#### Key Features

- Improves combing behaviour
- Conditioner, Smoothness, Gloss
- Volume and heat protection
- Moisturised skin feel

#### Key Applications

- Hair Care
- Transparent Shampoos
- Water based Treatments
- Body Wash

#### Application

CHT-BeauSil™ RE-AMO 919 EM is a conditioning agent for hair care products such as shampoos, conditioners and styling products. It provides optimum, long lasting conditioning effects (gloss, shine, antistatic effects, wave enhancement, combing effect) in hair care treatments. In skin cleansing preparations CHT-BeauSil™ RE-AMO 919 EM imparts emolliency and provides a smooth, non-greasy, soft and moisturised skin feel to cleansed skin.

The CHT-BeauSil™ RE-AMO 919 EM is made out of recycled silicone raw materials. The sustainability composition of the product is:

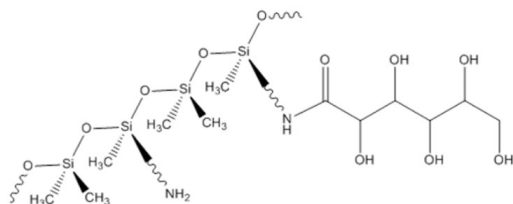

75% water

11% Ingredients / raw materials of natural source

14 % Recycled raw materials

1 % New synthetic raw materials

#### Structure of a sugar modified Amodimethicone

#### Use and Cure Information

Stir before use.

#### Health & Safety

Safety Data Sheet on request available.

#### Packaging

Drum and bulk containers. Please contact our sales department.
