

## HANSA CARE 6720 ECO Emulsion of a silicone as an ingredient for Home and Car Care.

### Description

PDMS emulsions are an universal ingredient for formulating products for home and car care applications. The PDMS emulsions are easy to use and have a good dilution stability. The products can be used to improve gloss, smoothness, softness and water repellency.

### Key Features

- Enhances gloss
- Increases color depth and has color restoring properties
- Smoothness and levelling
- Easy to rub off

### Key Applications

- Leather and Furniture Care
- Car Care
- Tyre and Vinyl Care
- Polishes

### Application

HANSA CARE 6720 ECO can be applied as care component for aqueous care formulations and is also suited for formulating care products for skittle and bowling alleys.

### Health & Safety

Safety Data Sheets available on request.

### Packagin

Drums and bulk containers. Please contact our sales department for more information.
