TECHNICAL DATA SHEET

XAF 100 100% active silicone defoamer for extreme pH

Description

CHT USA's 100% active defoamers are formulated to control foam in a wide variety of industrial processes.

Key Features

· Extreme foam knockdown and defoaming persistence

· Effective in low concentrations

Superior performance in high and low pH systems

· Easy to handle

Key Applications

Coatings

• Waste water treatment

Oil and Gas

· Pulp and Paper

Application

XAF 100 is used in to control foam in industrial applications including, pulp and paper, oil and gas, and recycling. XAF Series defoamers offer excellent perfomance in the most extreme conditions including high and low pH and extreme temperatures.

Property Test Value Method

Product

Appearance Liquid

Color White to off-white

Viscosity (cst) 6000

Addition Rates

Dosage - 1 100-10,000 ppm Active

Storage

Max Storage Temperature 40 °C / 104 °F

This product is available for Packaging sale as 40 lb. pails and 441 lb.

drums. and 2205 lb. totes

Shelf Life 12 mths

Use and Cure Information

100% active silicone defoamers can be dispersed with minimal agitation in most nonaqueous processing applications, however it is advisable to screen each application before use. Use product as is by adding directly into foaming system, or dilute with process liquid prior to use. Effective when added prior to foam generation or when added to control existing foam.

Health & Safety

Read product and safety data sheets before handling this product for physical and health hazard information. The safety data sheet is available from your CHT representative.

Limitations:

This product is not intended for pharmaceutical use.
